LA9039 2G/3G/4G OBD GPS Tracker Quick Guide

1. Buy & Install a 3G/4G SIM card (not included) into the SIM card slot.
Note: This unit requires data to be activated on your pre-paid or contract SIM card.
2. Push the OBD tracker into the OBD socket which normally locate below the driving dash board, the tracker will power on automatically, the green and red LED remains turned on, a few minutes later the green and red LED will flash, the tracker is ready to work.
3. The **Green** & **Red** LED flash once every 4 seconds, it means the tracker work well, if the Red LED flash twice every 4 seconds, it means the tracker can not visit internet, please do the following 4 & 5 step. if the Green LED flash twice every 4 seconds, it means No GPS signal, moving car to open air place to get better GPS signal.
4. Contact your mobile service provider to obtain the APN “name” in order to view the location on the tracking website. APN’s vary depending on your SIM card’s plan (pre-paid or contract)
5. Enter the following command via SMS on your tracker to set the APN “name”:

Send SMS “**APN*12345678*apnname**” (12345678 is the tracker password)

For example:

Plan: Vodafone Pre Paid

APN “Name”: live.vodafone.com

Send SMS: APN*12345678*live.vodafone.com

If the APN “Name” has been entered correctly, you will receive a SMS stating “APN:live.vodafone.com”(example)

Note: The APN “name” needs to be entered correctly otherwise the location may show up in Asia, Africa, etc.

6. Login to the tracking website (www.nextechgps.com) using the last 7 digits of the serial number for the username and password which is located in the battery compartment of the tracker.
For example:
Serial number: 038202012345678
Username: 2345678
Password: 2345678
7. Free “NextechGPS” app is available to easily view the current tracking location on your iOS® or Android smart phone or tablet. Vist www.igps.info/nextech can download & install the Android & iOS App.

App name: **NextechGPS**
